Project Scale & Expertise

Our construction teams handle projects from £50K to £3.5M+. We're experienced in both traditional and modern construction methods.

Construction

Our joinery team specializes in crafting bespoke wooden elements with precision and exceptional attention to detail.

Department: Joinery

Bespoke Woodworking

Our in-house joinery team uses advanced CNC machinery to craft precision elements.

Specialist Creations

We excel in creating bespoke furniture, windows, chairs and interior details.

Factory Finishing

All joinery works are completed in our controlled environment workshop.

Joinery

Our joinery team specializes in crafting bespoke wooden elements with precision and exceptional attention to detail.

Department: Spraying

Dedicated Workshop

Our purpose-built spraying facility ensures perfect finishes for doors, panels and cabinetry.

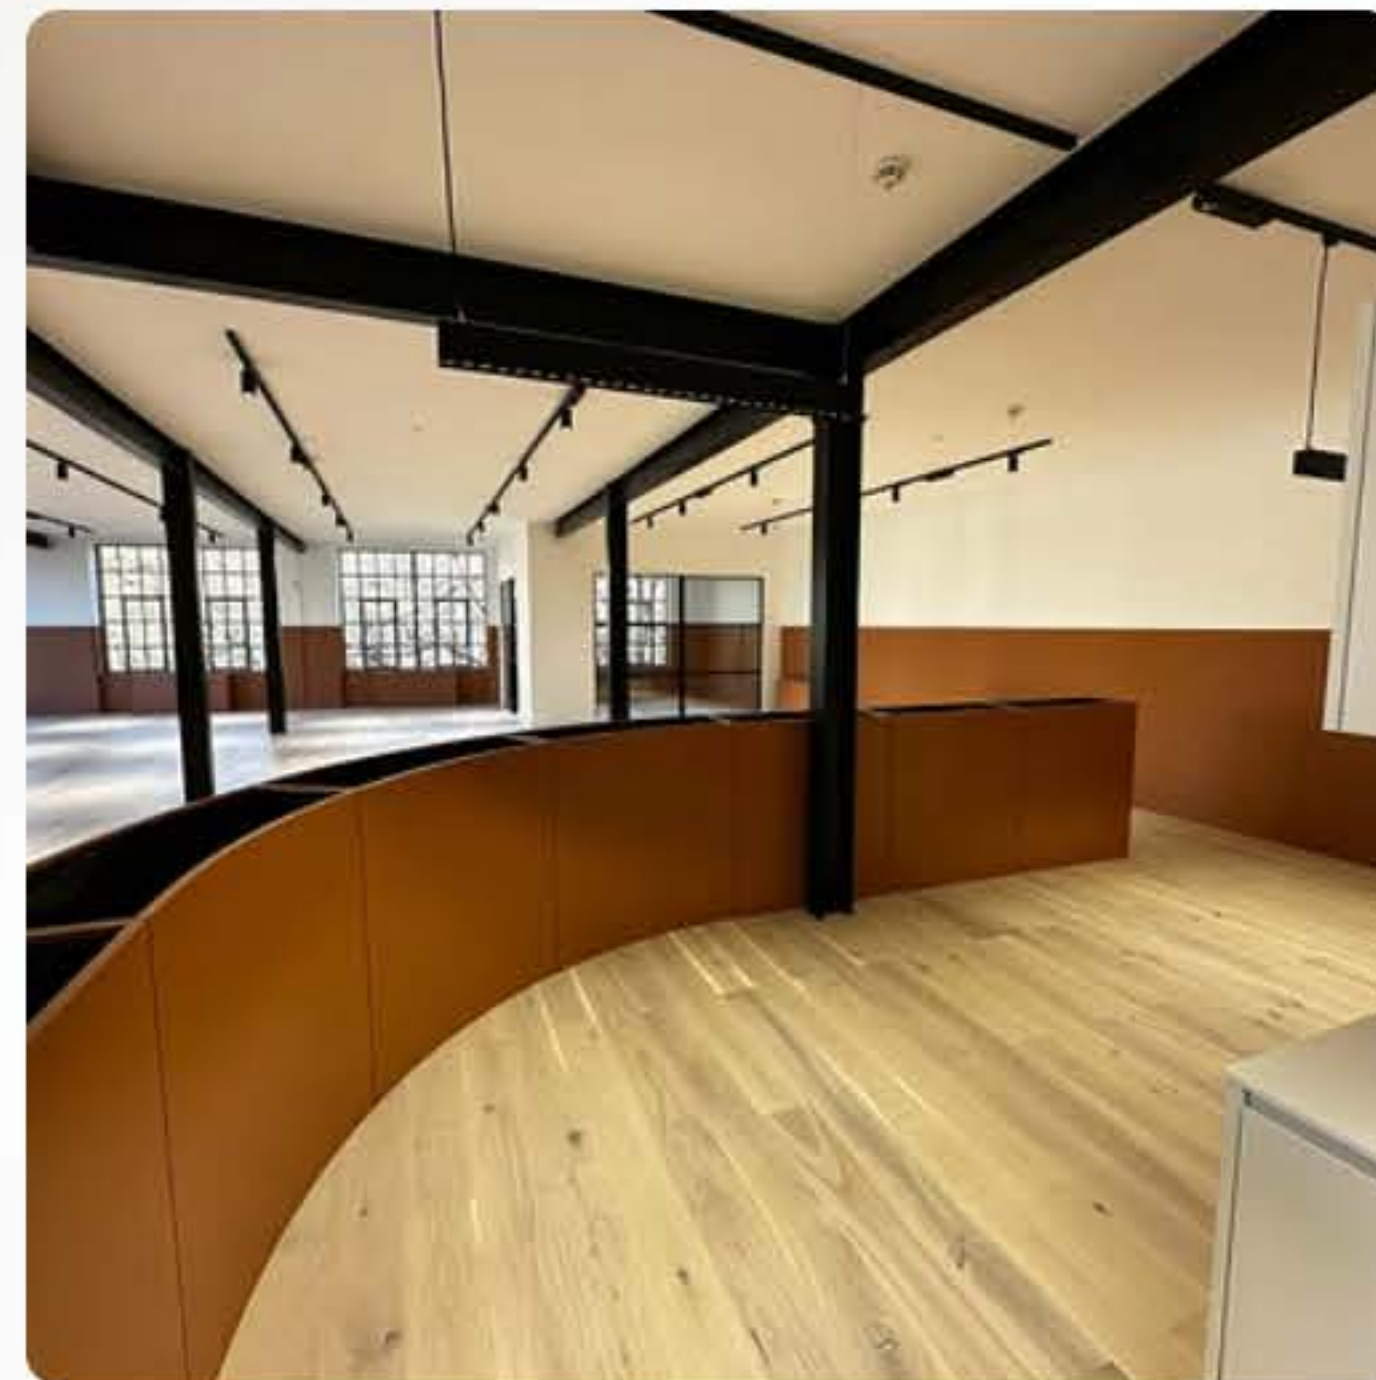

Eco-Friendly Materials

We use low-VOC paints and water-based sealants to protect both environments and health.

Custom Solutions

Our colour-matching service can recreate any shade. We offer smooth, textured or specialist finishes.

Spraying

Department: Electrical

Certified Expertise

Our electrical department operates to the highest industry standards, ensuring safe, compliant, and high-quality work across all sectors.

Comprehensive Systems

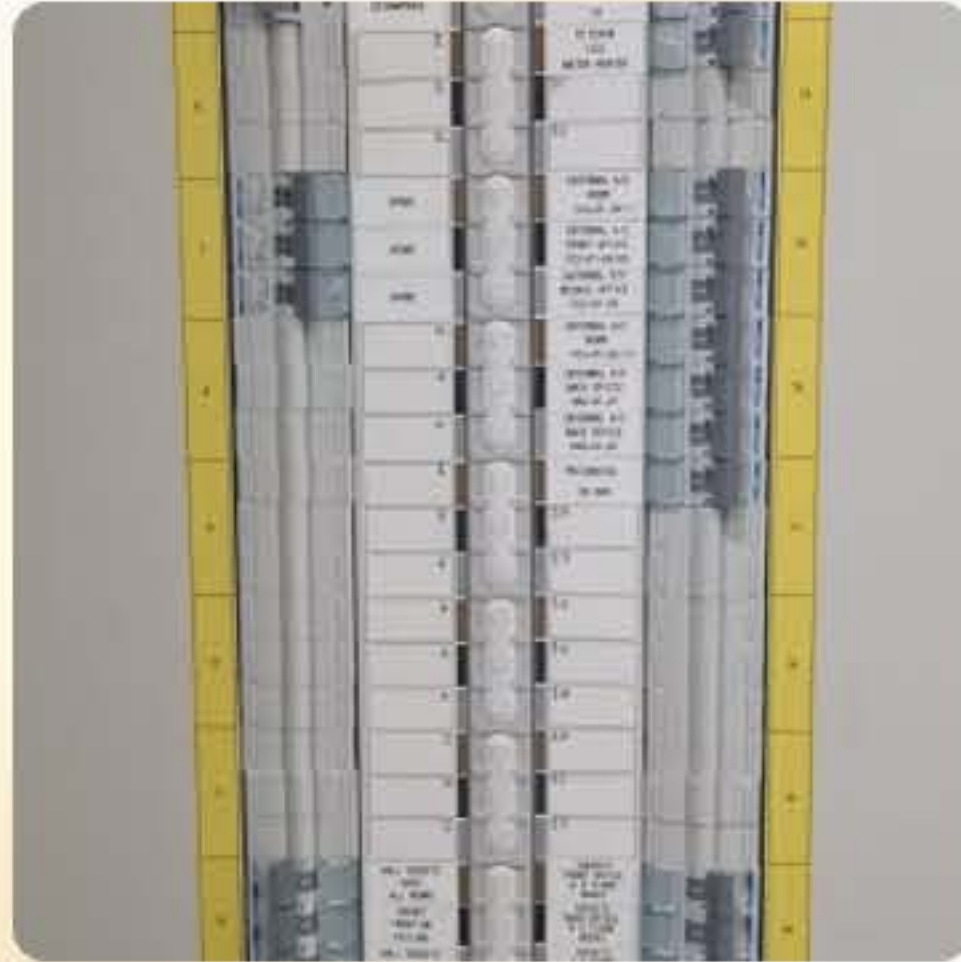

We install M&E, fire alarms, data networks and security systems to the highest standards.

24/7 Support

Our teams provide round-the-clock breakdown cover and planned maintenance services.

Electrical

Department: Elements

Waterproofing Excellence

Tailored Structural Basement Waterproofing design & install solutions to protect basements from water ingress and damage.

- Chartered Surveyor of Structural Waterproofing (CSSW)
- Triton/Wykamol approved installer
- Type A,B & C systems that meet BS8102 standards

Passive Fire Stopping Solutions

Comprehensive Fire Stopping design & install services preventing the spread of fire and smoke within service penetrations.

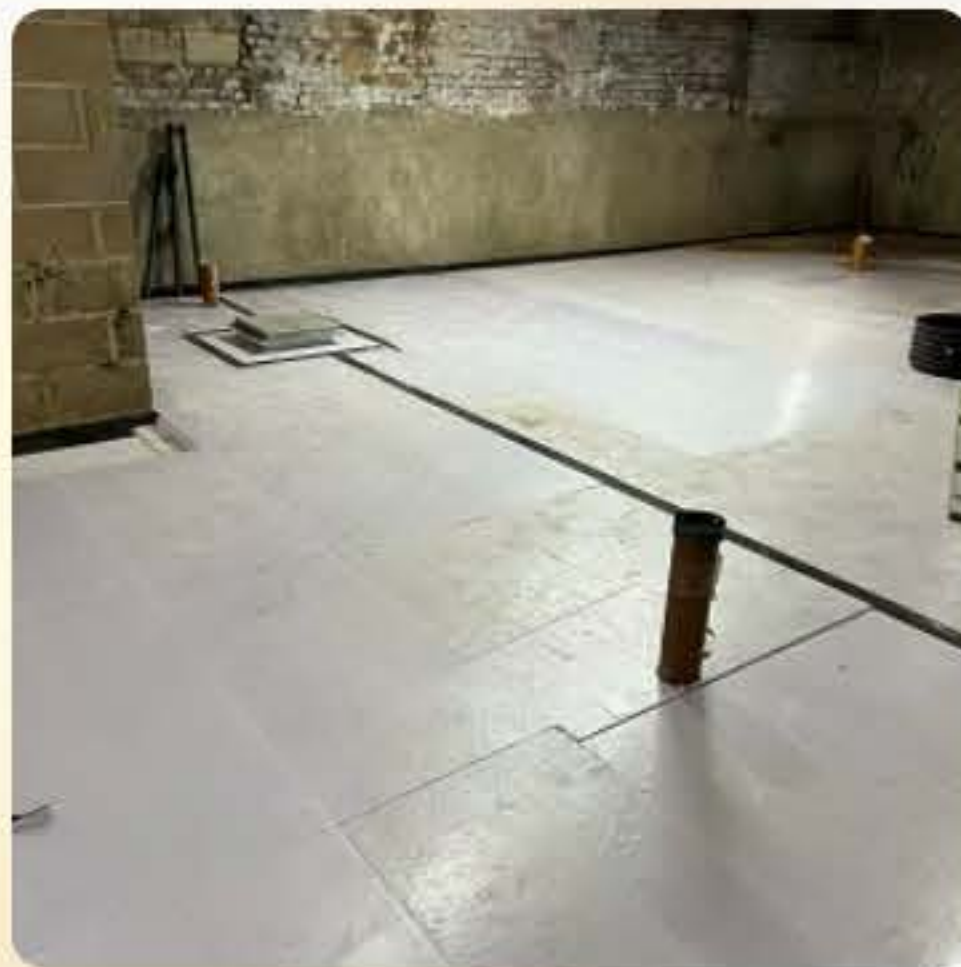

- Level 3 Inspector of Fire Stopping Systems
- Penetration seals, Linear gap seals, Load-Bearing Solutions and Cavity Barriers
- Systems compliant to BS 476 and EN 1366 standards

Elements

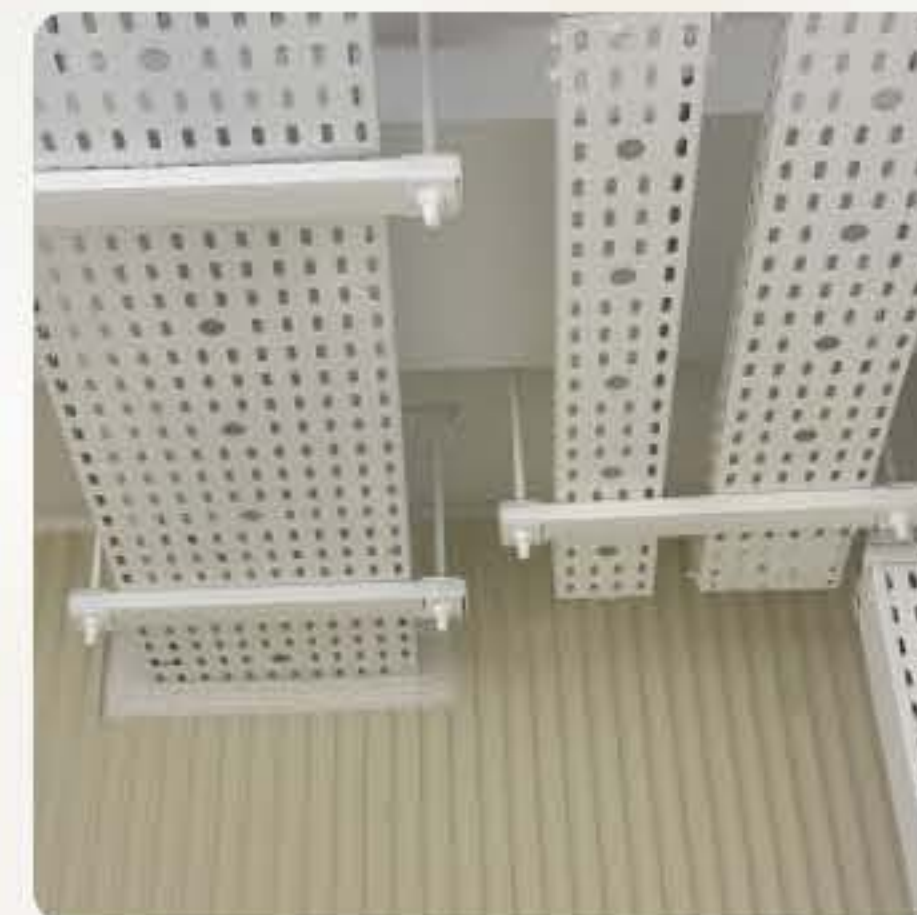

Waterproofing Solutions

Our comprehensive waterproofing systems protect structures from moisture damage and water infiltration.

Firestopping Systems

Our certified firestopping solutions prevent the spread of fire through building penetrations and joints.

DESIGN & BUILD SERVICES

Department: Design & Build

Initial Design

Collaborative concept development

Value Engineering

Cost-effective solutions

Construction

Seamless delivery

Our integrated approach ensures continuity from concept to completion. We emphasise early contractor involvement to optimise outcomes.

Design & Build

Our comprehensive design and build services showcase quality craftsmanship at every stage.

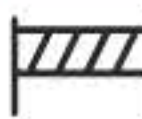

Project Case Study: Brecknock

Planning & Design

Detailed designs for 7 modern apartments in central London.

Covid Challenges

Implemented safe working practices and supply chain solutions.

Waterproofing Specialists

Advanced systems to protect the riverside development.

Successful Delivery

Completed 7 flats in 12 months, value £1.5M.

Project Highlight: South Hampstead Junior School

Fast-Track Programme

Delivered 70 new sash-windows made by our Skylon Joinery and replaced during Easter break. This project required precise scheduling as we had only 2 weeks to complete.

Modular Design

Utilised off-site construction techniques to reduce on-site time. This approach minimised disruption to school operations.

Stakeholder Engagement

Collaborated closely with teachers, governors and local authority. Regular updates kept everyone informed throughout process.

South Hampstead Junior School: Gallery & Results

The project was delivered on time for the new teaching period, receiving excellent feedback from our client and school staff.

Clerkenwell Fit-out Gallery

Health & Safety Procedures

Comprehensive RAMS

Detailed Risk Assessment & Method Statements guide all site activities. These are prepared by experts and reviewed regularly.

Mandatory PPE

Hard hats, high-visibility clothing, and appropriate footwear are required. Specific tasks require additional protection.

Specialised Training

All staff undergo regular safety training. This includes asbestos awareness, working at height, and confined spaces.

Why Clients Trust Us

Recognition & Trust

Skylon Group stands out in the industry for our proven reliability, professionalism, and the quality of our work. Our team's dedication, expertise, and client-first approach have earned us the trust of partners and clients across the sector.

Proven Reputation

Our growing presence on social media platforms reflects the trust we've built with clients, partners, and industry professionals. Many of our new projects come through word-of-mouth and online recommendations, showing how consistently we deliver results that people are proud to share.

Quality You Can Rely On

We follow well-established best practices and high operational standards to ensure safety, efficiency, and consistent results.

Thank You

SKYLON
